

Education outreach activities beyond campus

Women University of Azad Jammu and Kashmir, Bagh, actively engages in educational outreach activities beyond its campus. These initiatives aim to promote learning and skill development within the wider community. WUAJ&K organizes several visits to schools and colleges to foster collaboration and provide students with opportunities to explore higher education and career pathways. Details of the activities are provided below.

Lecture on World Water Day at Aghosh Al-Khidmat Bagh

Aghosh Al-Khidmat, Bagh, is a welfare organization that supports orphaned children through education and care. As part of the Women University of Azad Jammu and Kashmir's educational outreach beyond campus, Dr. Sharafat Hussain (Lecturer of Mathematics), Dr. Tufail (Lecturer of Zoology), and Dr. Anees (Lecturer of CS and IT) delivered tailored lectures to the students on World Water Day. These lectures focused on the importance of water conservation and sustainable practices, contributing to community awareness and education efforts. **(Annex. I)**

Training Sessions at Read Foundation School and College, Bagh

As part of its educational outreach activities beyond campus, the Women University of Azad Jammu and Kashmir Physics Department conducted multiple training sessions at Read Foundation College, Bagh. These tailored demonstrations, led by Dr. Adeel Younis, Mr. Azhar Saeed, Mr. M. Wazir, and Mr. Ayyaz Ahmed, not only focused on experimental work using advanced apparatus available at the university but also empowered the students with practical science skills, contributing to hands-on learning experiences for students and boosting their confidence in the field of science. **(Annex. II)**

Training at Girls Middle School Arja

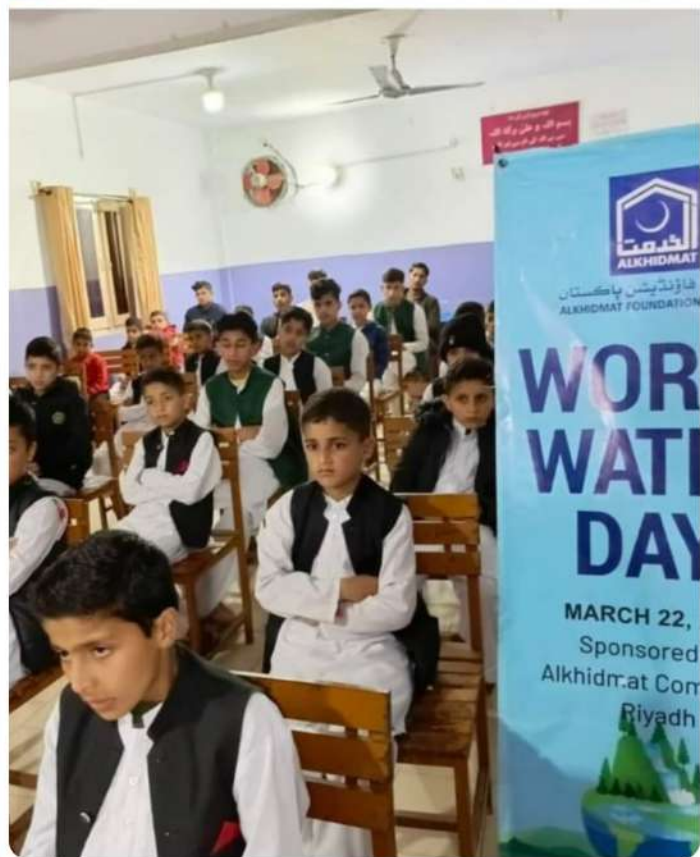

Women University of Azad Jammu and Kashmir extended its educational outreach activities to Girls Middle School Arja through a specialized training session.

This initiative, organized by Dr. Arshad, Coordinator of the English Department, involved tailored demonstrations designed to enhance learning and foster practical skills. By bringing university expertise to local schools, the program not only enriched students' educational experience but also garnered appreciation and support from the community for such initiatives. **(Annex. III)**

Workshop at Government Girls High School Nandrai

Women University of Azad Jammu and Kashmir organized a comprehensive workshop at Government Girls High School Nandrai focused on teacher training and student interaction. The session enhanced teaching methodologies and facilitated meaningful engagement between educators and students. This outreach effort aimed to strengthen educational practices and foster a collaborative learning environment within the local school community by providing practical insights and interactive opportunities. **(Annex. IV)**
