4.3.3: Vocational training events (lifelong learning)

1. Skill Devolopment in Collaboraiton with Aljiza Welfare Foundation

The purpose of this activity was to promote practical skills, particularly sewing and tailoring, among women to support their self-reliance and livelihood opportunities. The provision of sewing-related facilities and learning materials reflects an effort to encourage hands-on skill development and economic empowerment. Such vocational learning opportunities can help individuals acquire practical competencies, improve their prospects for income generation, and participate more actively in community development. This initiative is relevant to SDG 4 (Quality Education), particularly the promotion of lifelong learning and skills development beyond formal academic education. (Annex. I)

2. Seed Distribution and Practical Application at Household Level

Following the seed distribution initiative organized by the Departments of Botany and Environmental Sciences, Women University of Azad Jammu & Kashmir (WUAJ&K), Bagh, students applied their learning by cultivating vegetables at their homes and in their fields. Through this practical activity, students developed skills in home gardening, organic vegetable production, seed sowing, and sustainable agricultural practices. Students shared photographs of their cultivated plots and growing vegetables as evidence of the practical implementation of the initiative. This activity promoted hands-on learning, household food production, self-reliance, biodiversity conservation, and awareness of sustainable livelihoods. It also encouraged students to transfer their knowledge into practical skills within their homes and local communities. (Annex. II)

3. Five-Day Hands-On Workshop on Mobile App Development

The Department of Computer Science and Information Technology (CS&IT), Women University of Azad Jammu & Kashmir (WUAJ&K), Bagh, successfully organized a five-day hands-on workshop on Mobile App Development in collaboration with the Pakistan Software Export Board (PSEB) and the Special Communications Organization (SCO). The workshop provided students with practical, industry-oriented training through hands-on exercises and project-based activities. It aimed to strengthen participants' digital competencies and technical skills relevant to mobile application development, while supporting future employment, freelancing, and entrepreneurial opportunities. This initiative reflects the university's commitment to vocational training, practical skill development, and lifelong learning. (Annex. III)
