5.6.4. Childcare Facilities for Students

The Women's University of Azad Jammu and Kashmir (WUAJ&K), Bagh, supports its faculty, staff, and students through comprehensive childcare facilities. Considering the challenges of balancing academic and professional responsibilities with parenting, the university established a modern childcare center to provide a safe and nurturing environment for young children. Official notification of the establishment of childcare facilities. (Annex. I)

Subject: Availability of Day-Care Facility for Teachers and Students

It is hereby informed that the Women University of Azad Jammu & Kashmir, Bagh, provides a day-care facility to facilitate teaching faculty members and students with young children. The facility aims to support working mothers and student mothers by helping them manage their childcare responsibilities while continuing their professional duties and academic activities.

This initiative reflects the University's commitment to promoting gender equality, women's empowerment, inclusive education, and a supportive campus environment for women. The facility helps reduce childcare-related barriers that may affect students' participation in higher education and teachers' professional responsibilities.

The University remains committed to providing a family-friendly environment that supports the educational and professional development of women.
